

ESNE, UNIVERSITY SCHOOL OF DESIGN, INNOVATION AND TECHNOLOGY INTERNATIONAL PROGRAMS

Welcome to Madrid

Madrid is the political, financial and cultural capital in Spain. The city is perfectly connected to all the European capital cities in Europe (2 hours to Paris, London or Milan, and little more than 3 hours to Berlin, Eastern Europe and Copenhagen), and to the main ones worldwide by plane from one of the most advanced and referential international airports, Aeropuerto Adolfo Suárez Madrid - Barajas. Madrid is also connected to more than 30 cities in Spain in a very short time thanks to its central position within the national high-speed rail network. Within the city, Madrid citizens enjoy everyday the vast offer in public transportation systems, including the second largest subway network in Europe.

Madrid is a lively, safe and cosmopolitan city. It offers the possibility to get closer to the Spanish language and culture, together with an extensive tradition in art and design. It is the third most relevant city in international events organization, and it hosts the headquarters of over 2,000 multinational companies. After London, Madrid became the second European city to host Google Campus facilities.

Accommodation services in Madrid are internationally outstanding, in terms of numbers and quality. It offers its visitors uncountable options for leisure and culture. Madrid is permanently active, day and night, being noticeable and popular for its varied possibilities in culture -including one of the largest art galleries in the world, Museo del Prado, and very relevant international museums-, gastronomy, sports events and night leisure. All these features position this city as the first choice for students from all over the world, with over 200,000 students attending Madrid universities every year. It is the perfect place for students worldwide to enjoy the best university experience.

ESNE Design Campus

We are a University Centre highly regarded for providing integrated training in the areas of design, innovation and technology, contributing to the invigoration and advancement of the Creative and Digital Industries.

ESNE is the biggest and leader Design Campus in Spain. To date, 1,200 students have received specialized official training in Design in our classrooms for more than a decade. The academic staff meets the level of excellence demanded by the National Agency for Quality and Accreditation (ANECA). Our lecturers are professionals vastly experienced in the creative and technological industries. ESNE also carries out intensive research and technology transfer through its R&D&I projects and its links to cutting edge companies in each design field.

Our passion for creativity, combined with new technology, is also demonstrated in our specialized state-of-the-art facilities, making ESNE a leading University Centre in Spain in the training of the designers of the future.

ACADEMIC OPTIONS

ESNE offers Official BA (Hons) and Master programs in Design and Vocational education courses. ESNE offers also British Higher National Diplomas (HND) as an authorized center for British HE studies.

ESNE Summer School provides courses open to any student, as well as activities designed for groups or foreign universities interested in providing their students new skills, or a different perspective through an international short-term experience.

Our trajectory in student exchange is extensive and it is supported by a broad network of international partners in Europe, Latin America and the USA.

Undergraduate & Graduate programs*

BA (Hons) in Interior Design
BA (Hons) in Product Design
BA (Hons) in Fashion Design
BA (Hons) in Multimedia & Graphic Design
BA (Hons) in Games Design
Master in User Experience for Product Design & Digital Services
Master in Fashion, Technology and Digital Businesses
Master in Game Development. *Specialities: Games for mobile devices; E-Sports; Video games for education*

**Spanish is the main instruction language for official degrees. International students willing to study any of these programs can apply during the regular registration periods. The requirements will be provided by the admissions department.*

Study Abroad - International Mention

ESNE outgoing students studying one semester abroad will be awarded with an International Mention.

Incoming students can apply for 1 or 2 semesters at ESNE and register of 24 to 30 ECTS (European credits) per semester. ESNE will provide official transcripts and certificates stating that their time and scopes at ESNE as international students were completed. ESNE provides two different Study Abroad options for incoming students:

- International program I (English):

Students can choose a number of courses from a pre-determined selection. These courses will be taught in English and therefore the applicants don't need to fulfill specific requirements related to their level of Spanish.

SEMESTER 1 (Fall Term)

Digital FABrication LAB	6 ECTS
Photography and Design	6 ECTS
Design Studio	6 ECTS
Fashion Design & Luxury Brands	6 ECTS
Games Development	6 ECTS
Art, Design & Spanish Culture	6 ECTS

SEMESTER 2 (Spring Term)

3D Modeling	6 ECTS
Design Entrepreneurship & Management	6 ECTS
New Trends in Visual Merchandising:	6 ECTS
Interaction & Experience Design	
New Fashion & Textile Technologies	6 ECTS
Character Animation	6 ECTS
Art, Design & Spanish Culture	6 ECTS

- International program II (Spanish):

Students can choose any course of his field as long as it is part of the 4th academic year offer. They will be part of the regular groups and attend courses together with ESNE students. If due to incompatibility in the definition of the individual schedule any student would need more credits, then some courses of the 3rd year would be offered until the total amount is assured. It is a requirement that students certify the level of Spanish language requested. The courses can be consulted at www.esne.es or inside the generic information booklets. For special inquiries about this procedure, please contact the International Office.

Students Exchange

Students willing to come to ESNE as exchange students from a partner institution (inter-institutional agreement previously signed) can apply for a period of 1 or 2 semesters (24-30 ECTS per semester) during the dates defined for applications. Without the agreement they will be considered Study Abroad students. Full instructions will be available every year at the International section on the website.

Students attending courses in Spanish will belong to regular groups and attend courses together with ESNE students. Students willing to attend the courses in English must send an email to the International Office in order to be informed of the availability of courses and estimated timetables.

Summer Programs

Each summer ESNE receives national and international students who decide to enroll in any of our summer programs. The duration of the courses vary from 2 to 5 weeks, and they take place in June and July. At the moment there are 3 types of programs:

- Design courses:

An overview of several approaches to Design will be addressed in blocks of 12 ECTS (120 hours).

- Specific Design courses:

During 2 intensive weeks these students will develop conducted activities and attend courses defined for each program. Generally these are hands-on workshops with additional theoretical lessons. The topics may vary every year. The workshop "Sketching cars & clay modeling" (60 hours, 6 ECTS) is one of our most recent programs (Summer 2017), in collaboration with STAEDLER. One of our programs for the Summer of 2018 will be a course on *User Centered and Experience Design* conducted by professors of our Master in User Experience, most of them current managers and designers at Telefonica R&D.

- Arte, Diseño y Lengua española:

This course offers a general overview of these three main topics. It includes theoretical and practical classes, visits to representative institutions and companies, and master classes. It will consist of 12 ECTS (120 hours) distributed in 5 or 6 weeks. Course in Spanish.

Joint Programs with international Partner Universities

ESNE constantly seeks new and challenging collaborations with universities. Please contact the international office.
